

Warsaw, 8.03.2019

Letter of Recommendation

Mr. Bartosz Stawiarski has been professionally involved with Museum of Modern Art in Warsaw (MSN) for 12 years. In the 2007-2008 period, our cooperation was on B2B basis. In January 2009 he signed a full-time employment contract and through January 2019 worked for Museum's Promotion and Internet Department as Network and New Media Development Chief Specialist.

Since he started his work for the Museum in 2008, thanks to close and efficient cooperation with our Team, Bartosz has had a crucial impact on MSN's image on the Internet. He delivered projects and managed subcontractors that prepared two www.artmuseum.pl sites, sites dedicated to Museum's renowned projects (Warsaw Under Construction, Bródno Sculpture Park, etc.), or several dozens of museum exhibitions' mini sites. His leadership in the www.artmuseum.pl project was acknowledged by Mobile Trend Award 2013 in mobile websites category.

Moreover, ever since he started his journey with the Museum, Bartosz was our main photographer who documented all exhibitions and vast majority of art events. His skills and aesthetics were of great value and made all the projects he delivered – both photographic and digital, highly creative and inspiring.

Bartosz was also responsible for Museum's key activity: preparation of the Museum's Artists and Film Archive. He coordinated not only the creation of websites, but most of all delivered digitalization standards, necessary equipment and – thanks to series of meetings and workshops with his team – adjusted the Archive to user needs and expectations.

Preparation of application for coordination and budget management of the Museum was yet another very important project where Bartosz proved not only knowledgeable but also user-oriented.

Every person who enters Museum of Modern Art in Warsaw uses info screens which were created by Bartosz. Thanks to his everyday contribution, everlasting initiative and creativity, supported by vast knowledge about Internet and new technologies, the Museum is set as an example among cultural institutions in Poland.
